Congress Street Detour Set for April 22-26 – HOURS UPDATED

Congress Street will be closed between St. John and Weymouth streets from Monday, April 22, through Friday, April 26, to allow the repaving of the road in front of Maine Medical Center's new Malone Family Tower.

The closure will begin April 22 and will be in effect from 6 a.m. to 7 p.m. daily for the duration of the project.

Traffic will be detoured down St. John Street to Park Avenue, then back up Weymouth Street to Congress Street. Local traffic will have an optional detour down Valley Street. Please see map, below, for more details.

Patients and Visitors will continue to have access to the Congress Street entrance of the Patient and Visitor Garage as well as the garage for MMC's 887 Congress St. Medical Building. Patients visiting the Maine Medical Center Sleep Institute at 930 Congress St. will be able to park in a lot at 48 Gilman St.

The detours will be marked by signs and flaggers will help direct traffic. Sidewalks will remain open to pedestrian traffic.

MMC appreciates the community's support and understanding, and apologies for the inconvenience of the detour.
