Community Input Sought

MaineHealth seeks community input as it prepares its required three-year update of its Institutional Development Plan (IDP) for the city of Portland. The IDP describes what MaineHealth has undertaken at its Maine Medical Center Bramhall campus in recent years and looks forward to possible uses.

MaineHealth invites community members to participate in this brief survey in order to provide input which may be used to inform planning as the healthcare system considers future uses of properties and development at and near the Bramhall campus.

The survey will be open for two weeks, and [can be found here](#).

Thank you.
