

Let's Go! Cafeteria Signage

The Let's Go! Cafeteria Signage was designed to assist you with promoting the program and boost consumption of healthy, reimbursable school meals. We know the use of fun and colorful signs can attract students to the healthy options and participate in school meals.

The Let's Go! Cafeteria Signage kit includes:

- 2 Build a Health Lunch posters w/ a dry erase marker
- 4 water posters with different pictures
- 4 milk posters
- 20 food bar signs

Build a Healthy Lunch Poster: This poster creates a student-friendly visual of their meal tray and can be used to promote your reimbursable meals or featured entrée. Place in a highly visible place allowing students to plan their meal choices ahead of time.

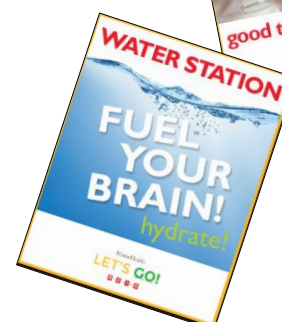

Food Bar Signs: These postcard size signs provide you with descriptive names for 20 different fruits and vegetables. These can be displayed on the salad bar, fruit bowls, point-of-sale, or any location on the line where fruits and vegetables are being served.

Milk Posters: These can be displayed on milk coolers or throughout the cafeteria.

Water Posters: These can be displayed by water stations, a la carte coolers, or throughout the cafeteria.

To request Let's Go! Cafeteria Signage please email us at LetsGo@mainehealth.org.
