Dear Colleague:

Thank you for participating in the MaineHealth ACO. I'm writing to share the final list of payers and health plans included in our 2022 portfolio of value-based care contracts.

Our team is proud to negotiate these contracts on your behalf. We work hard to ensure favorable agreements with reasonable cost and quality benchmarks that help make shared savings more attainable and, in some cases, negotiate favorable reimbursement rate and pay-for-performance incentives. Our 2020 contracts, the most recently settled, earned the ACO and participating practices \$26 million in shared savings and incentives, a powerful sign of our collective success. While we can negotiate terms that reward the excellence you achieve, it's your dedication to high-quality coordinated care that makes the difference. Thank you.

Your practice and all MaineHealth ACO participants are party to the following value-based contracts:

Commercial/Government

- Aetna
- Anthem –Enhanced Personal Health Care (EPHC)
- Beacon Health – Eastern Maine Health System employee health plan (primarily Mercy Hospital employees)
