

# Pen Bay Medical Center Locations

PBMC CAMPUS

SAFE APPOINTMENTS

While our services may look different, MaineHealth remains committed to providing safe, exceptional care - close to home. Protecting patients and care team members is our top priority as we resume time-sensitive care across the MaineHealth system. Safety measures now in place at all care locations include: safe scheduling, video visits, safe screening and safe facilities.

Lobbies and Common Areas

All door handles, elevator buttons, tables, and chairs are sanitized frequently throughout the day. We removed all reading materials and moved seats to meet social distancing guidelines.

Exam Rooms

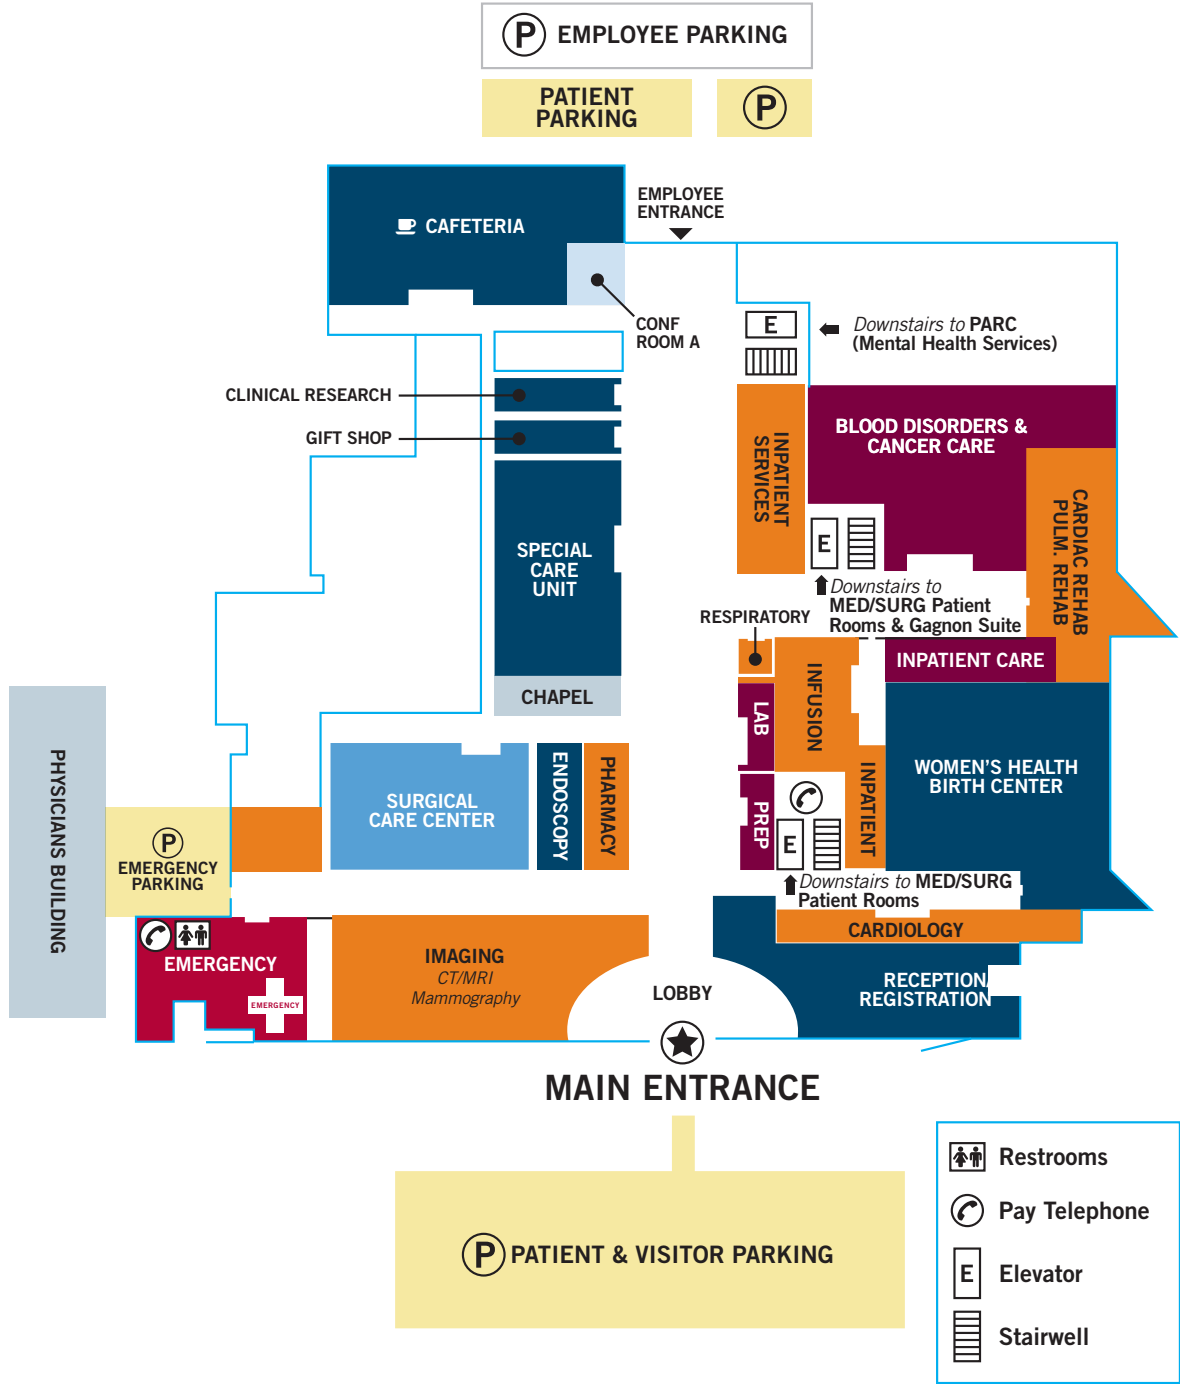

Exam rooms and procedure areas are also thoroughly cleaned and sanitized between each patient visit. We schedule extra time between each appointment for this important work.

COVID-19 Positive Patients

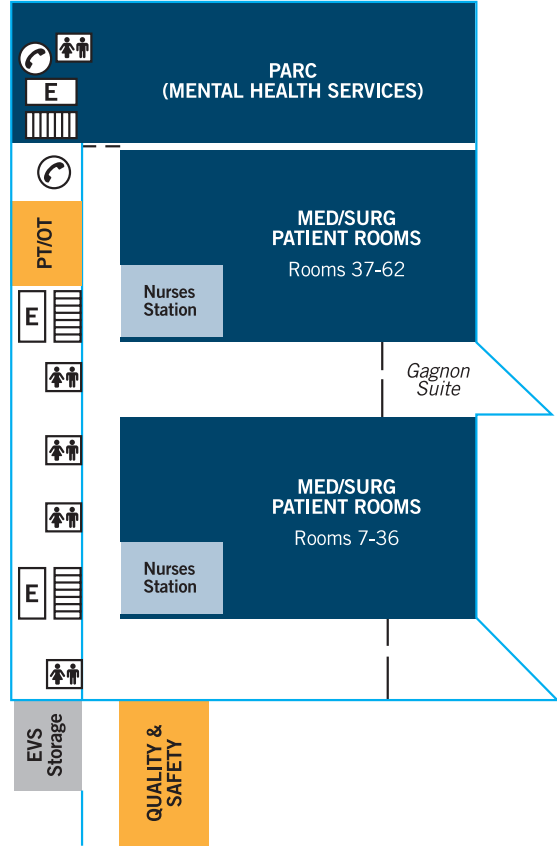

In all MaineHealth locations, COVID-19 patients are safely isolated and cared for in special areas separate from all other patients. In many cases, they are in separate buildings.
